

# The Last Train

By Akol Miyen Kuol

Let us check that train  
Let us check it  
Before it leaves this station

Let us check what is wrong with it  
It killed a number of people on the way  
Let us find out its problem today

Let us listen to the passengers who were on board  
Let us listen to the passengers who are still on board  
Some people attribute its defect to the main driver  
Others attribute it to all our drivers

O brother and sister  
Let us check our only train  
Because there is no other train  
This is the second and the last train  
Let us save it till it reaches it's last station

Oh! Brothers and sisters  
Let us save the lives of the remaining passengers  
For Friends Sisters Brothers  
Parents Land and relatives  
Are waiting for us  
There is something enough waiting for all of us  
Despite our number, different ages  
Or background there is something enough  
For all of us

Oh, let us repair our last train  
For it is the only hope  
For the whole nation.
